

Admiral's Background

Where is Admiral product made?

Admiral operates its own facility with over 100k+ sq. foot of space and 200 full time employees that only work for Admiral. In 2021 we added high speed printers to double our printing capacity, improved press quality, added automated fabric cutting which has added an additional 50% capacity in fabric cutting, added new Digital Transfer printers which allow immediate production of high-quality logos with no min order quantities and finally we're training additional machinists to add sewing capacity.

Unique solution ID: #1015
